

January 30, 2007

Dear Green Planet Building,

I am embarrassed at the length of time that has passed before I wrote this letter. I want to commend your company for an excellent job. The service, quality, support, and professionalism that your team provided during my remodel were above expectation.

We are so pleased with the end result of the remodel. I have only received positive feedback from every person who has seen your work. In addition, a year after completion of work, there is not one thing that I am not 100% satisfied with.

My husband and I have always demanded service. My husband was against a remodel from the start. In any event, both of us were so impressed with the Green Planet Building crew. You folks started when you said and finished when you said, went over and above on the work, offered support, and advise on matters, the crew was always professional and polite, kept the work area as clean as possible, and basically did all possible to make the experience a positive one.

You're the best! Thank you.

Sincerely,

Pamela Morovati
